

Language Arts 6

COURSE DESCRIPTION:

The 6th grade Language Arts curriculum integrates literature, vocabulary, writing and grammar together in a 21st Century setting. The students will be given the opportunity to create blogs (online journals) where they can log and reflect upon their independent reading. They will be asked to engage in discussion forms where they will post their writing for the teacher and other students enrolled in the course to view and respond. They will be presented with the possibility of creating a multimedia report rather than a traditional research paper. This course will empower life-long learners who are actively engaged in their own learning and take ownership of their scholastic endeavors.
