As part of the Olympia School District, iConnect Academy is your local blended learning community. What sets iConnect Academy apart from other schools is that our teachers are located in your community.

We offer students the full range of courses needed to earn a high school diploma with the flexibility of working any time day, or night, anywhere there is Internet access.

iConnect Academy is a K-12 program.

Our students have the advantage of receiving individualized support with all their coursework from our teachers while earning a diploma that carries with it the excellent reputation of the Olympia School District.

There are also a number of credit recovery solutions in language arts, math and social studies – these options provide an opportunity for students to recapture credit and master concepts they might have not understood during their initial attempt in the course.

Students and their teachers get to know each other through weekly face-to face interactions. Students are also able to interact with peers, online and in-person, and easily get help from their teachers with especially difficult concepts or topics.

Students who are not already full-time students in another school may have their courses covered by state funding. Fee-based courses are available. Students who are homeschooled may be interested in supplementing their home studies with online courses.

All students must fill out the Application for Enrollment at our Webpage prior to being called for an interview with our Assistant Administrator.

If accepted for enrollment, out-of-district students need to call or visit their resident district's office to request a Choice Transfer form. Once completed, it releases the student to enroll in the Olympia School District.
