

HOW TO USE ONLINE AND OTHER RESOURCES:

You are welcome to use additional online resources to search and surf safely (Khan Academy, Google, Youtube, and other learning websites) besides the instructions provided by Edgenuity. You may consult with friends and family members. However, please know that ultimately, you should be able to know how to work problems out on your own, and you should be able to learn how to teach yourself and learn how to learn. You are carving your own future and your future success depends on what you do with your time and attitude right now.
